PRICING & TIERS — IMPLEMENTATION UPDATE

For: App Builder / Development Team

PracticePro Systems Limited — Lagos, Nigeria

Confidential — August 2026

CONTEXT & DECISIONS

This document supersedes any previous pricing guidance. Key decisions made after market validation:

- **Atrium remains ANNUAL-ONLY.** Yearly rent is standard across Nigeria (Lagos, Abuja, PH, Delta, etc.). Property managers think in annual cycles, not monthly.
- **Atrium trial extended to 60 days.** A 14-day trial captures zero rent collection events. 60 days allows property managers to experience service charge collection, maintenance cycles, and tenant portal adoption before committing.
- **Vega keeps monthly + annual.** Law firms bill monthly/retainer. Monthly billing aligns with their cash flow.

CRITICAL: Rename all 'Core' tiers immediately. Vega Core = 'Free'. Atrium Core = 'Starter'. Using the same name for a free tier and a paid tier causes chargebacks and trust erosion.

VEGA — LEGAL PRACTICE MANAGEMENT

Billing: Monthly or Annual (save 20%). Trial: 14 days on paid tiers.

Vega Add-Ons

- Extra 5 Seats: N20,000/mo (Growth only, max 1x — caps at 10 users total)
- Extra 10 Seats: N36,000/mo (Growth only, max 1x — caps at 15 users total)
- Extra 50 GB Storage: N8,000/mo (all tiers)

NOTE: Seat add-ons on Growth are intentionally capped to push users to Pro at 11+ users. The math must make Pro the obvious choice.

ATRIUM — PROPERTY MANAGEMENT

Billing: ANNUAL ONLY. Trial: 60 days on all paid tiers.

WHY 60 DAYS: Yearly rent is standard in Nigeria. A 14-day trial captures zero rent collection events. 60 days allows property managers to experience service charge collection, maintenance ticketing, and tenant portal adoption before their first annual payment.

STARTER	GROWTH	BUSINESS	PRO	ENTERPRISE

Atrium Add-Ons

- Sentry Pass (VMS): N15,000/mo (14-day free trial, Starter+)
- Extra 50 GB Storage: N8,000/mo (all tiers)

NOTE: 'Business' tier (N850K/yr, 75 units) is NEW. It fills the 6x gap between Growth (N350K) and Pro (N2.1M).

KOMplete — UNIFIED PLATFORM

Billing: ANNUAL ONLY. Trial: 60 days.

KOMplete
N2,200,000 / year
All Vega Pro features (unlimited users, matters, storage)
All Atrium Pro features (unlimited units, tenants, WhatsApp)
Sentry Pass included (N15K/mo value)
500 GB shared storage
Dedicated account manager
Priority phone & WhatsApp support
Custom integrations included
[Get Komplete] [Talk to Sales]
Buying Vega Pro + Atrium Pro separately = N2,820,000/yr. Komplete saves N620,000/yr.

KEY CHANGE: Komplete now has UNLIMITED seats (was 10). Previous pricing made separate Pro tiers cheaper for firms with 11+ staff. Now Komplete is mathematically the best deal.

IMPLEMENTATION TASKS

Build in this order. Each phase is self-contained.

Phase 1: Database & Naming (Day 1)

1. Rename tier enums/IDs:

vega_core → vega_free

atrium_core → atrium_starter

2. Add new tier:

atrium_business (N850000, 75 units, 100 tenants, 2000 whatsapp)

3. Update Komplete:

price: 2200000, maxUsers: null (unlimited), includesSentryPass: true

4. Update all UI strings, emails, and checkout flows to reflect new names

Phase 2: Trial Logic (Day 1-2)

1. Change Atrium trial duration from 14 to 60 days in subscription logic
2. Update trial expiry emails (Atrium-specific, 60-day sequence)
3. Update Founder App: trial duration display, sales pipeline labels
4. Vega trial stays 14 days — no change needed

Phase 3: Gating & Limits (Day 2-3)

1. Build usage meter component for dashboard:

- Matters used / matters limit (Vega)
- Units used / units limit (Atrium)
- WhatsApp sent / WhatsApp limit (Atrium)
- Storage used / storage limit (both)

2. Implement soft warning at 80% capacity (yellow banner)

3. Implement 7-day grace period at 100% capacity (red banner, feature still works)

4. Implement hard block at 110%+ (with 'Contact support for extension' override)

5. Sentry Pass specific: 14-day trial → 7-day grace → hard block with 1-click reactivate

Phase 4: WhatsApp Overage Handling (Day 3)

1. When WhatsApp limit reached: queue messages for next cycle OR offer instant upgrade
2. NEVER silently fail to send a rent reminder or demand notice
3. Dashboard notification: 'Your WhatsApp limit has been reached. Messages will send when your limit resets in X days, or upgrade now.'

Phase 5: UI/UX Clarity (Day 3-4)

1. Show 'X of Y used' counters on all limited resources in settings

2. Show storage in document equivalents:

1 GB $\approx$ 200 documents | 20 GB $\approx$ 4,000 documents | 100 GB $\approx$ 20,000 documents

3. Show per-unit cost on Atrium pricing cards (e.g., 'N15,000 per unit per year')

4. Add support tier badges to pricing cards:

Free/Starter = Email (48hr) | Growth = WhatsApp (24hr) | Pro = Priority (4hr) | Enterprise = Dedicated AM

5. Add 30-day money-back guarantee badge on all annual plan CTAs

6. Add 'Save 20%' badge on annual billing toggle

Phase 6: Feature Teasers (Day 4)

1. For locked features (e.g., Advanced Reports on Starter), show grayed-out UI with tooltip:

'Advanced Reports – Available on Growth and above. [Upgrade]'

2. This applies to: reports, API access, custom integrations, white-label

Phase 7: Testing (Day 5)

1. Test all tier transitions: Free $\rightarrow$ Growth $\rightarrow$ Pro $\rightarrow$ Enterprise

2. Test gating scenarios: 80% warning $\rightarrow$ 100% grace $\rightarrow$ 110% block

3. Test Sentry Pass trial expiry: day 14 (full) $\rightarrow$ day 21 (grace) $\rightarrow$ day 22 (block)

4. Test WhatsApp overage: limit hit $\rightarrow$ message queues $\rightarrow$ upgrade flow

5. Test Paystack checkout with new tier prices

6. Test manual bank transfer flow with new tier prices

SUMMARY: Atrium stays annual-only (correct for Nigerian market). Trial extends to 60 days (captures service charge + maintenance cycles). Komplete becomes a true no-brainer bundle. Gating becomes soft and trust-preserving. All changes are backend + UI — no architectural rework needed.
